

CLEANING GUIDE FABRICS, VINYL, MESH AND LEATHER

CLEANING GUIDE

BOUTY chairs are made of top-quality materials that ensure the durability of the product. However, constant maintenance is required to ensure its longevity. It should be noted that intensive use may require more frequent maintenance.

When using a cleaning product, it is strongly recommended to test a small inconspicuous area to verify the stability of the colors before cleaning the entire stain.

LET'S BE ECO-RESPONSIBLE

In order to reduce the impact of the use of cleaning products on our environment, we suggest using Green Seal, EcoLogo or Ecocert certified products.

We also encourage you to observe the following procedures:

- Reduce the amount of chemicals used during cleaning.
- Use high particulate filtration vacuums to trap airborne particles and prevent them from affecting indoor air quality.
- Use cleaning products that have low levels of dyes and fragrances.
- Some dyes can stain fabrics.
- Choose biodegradable cleaning products.
- Avoid using products with ammonia or alcohol.

UPHOLSTERIES

Polyester

This fabric is resistant to most cleaning solvents. For small stains, use mild soap and water, then rinse with water and dry with a lint-free cloth.

If there are oil or grease stains, these will respond to a mild or dry solvent such as Formula 409® or Fantastik®. Rinse with water and dry.

Stain build-up can be removed with a mild detergent or furniture cleaner.

Rinse well with a clean sponge to remove traces of the water-based cleaner.

Please note that this fabric dries very quickly.

Vinyl

Remove dirt and stains with a mixture of mild soap and warm water. Use a cloth to clean the area, rinse with water and dry with a lint-free cloth. A soft bristle brush may be necessary to remove dirt from crevices.

Do not use abrasives or steel wool as this may damage the surface.

Do not use solvent-based cleaners. The Premier collection upholsteries can be cleaned with Virox 5, PCS sodium hypochlorite and Triad III.

Polyurethane

Use a mixture of mild soap and warm water to clean the surfaces of chairs.

You can rub the stained area with a cloth.

For dirt that is embedded in the grain of the surface, use a soft brush. If necessary, use some cleaning powder. Always rinse and dry with a cloth.

Leather

Leather is a natural product and requires very little care during use. Most stains can be removed with a clean, dry cloth.

For general care, remove dust from the surface of the leather as you would on furniture. For tougher stains, use a mild detergent, rinse well and air-dry.

Never use abrasive products, oils, varnishes or ammonia on leather. Some cleaning products may cause discoloration and should be tested in an inconspicuous area before use.

Woolen fabrics

Dry cleaning (with solvents) is the preferred method of getting rid of stains.

Oil, grease, dirt and usual stains should respond to gentle cleaning with a dry solvent. Use a blotting technique.

Over-scrubbing the fabric can lead to abrasion of the surface.

GENERAL RECOMMENDATIONS BY CARDED FABRIC SUPPLIERS

	A Grade	B Grade	C Grade	D Grade	E Grade
WS Use a water-based or foam cleaning agent, or a pure and waterless solvent	Punch card, To the point, Couture, Pebble	Insight, Origin, Grid, Optic, Continuum, Open house, Quadrille, C-Zero *	Hue, Foundation, Durango	Perk, Caressa, Key largo	Beta, Pip
W Use a water-based foam cleaner	Turner, Monroe	Premier, Fedora, Challenger	Canter	Endurance, Beeline, Cashmere II	
S Use only waterless pure solvents	Cornerblock				
BC (Bleach cleanable) Prepare a solution containing 10% bleach, clean for a maximum of 10 minutes and rinse promptly with water.			Durango	Caressa, Key largo	
CFC (Coated Fabrics Cleaning) If a spill/stain occurs, wipe immediately with a clean, dry cloth. Carefully remove the majority of the stain and then observe the following steps: Soap and water Remove dirt and stains with a soapy water solution and rub lightly with a cloth or towel. Rinse with water and wipe dry. Non-abrasive cleaners If residue remain, apply Fantastik® or Formula 409® cleaners directly and gently wipe with a cloth. Rinse with water and wipe dry. Isopropyl alcohol Stubborn stains can be removed with a cotton cloth soaked in 70-91% isopropyl alcohol (rubbing alcohol). Wipe off without spreading the stain to the surrounding area. Make a second application by rubbing vigorously in a circular motion. For highly textured materials, a soft brush is recommended to clean out the crevices. Rinse with water and wipe dry.			Durango	Caressa, Key largo
